This class will prepare experienced tenured teachers for the intentional and confidential process that will provide their protégés with the information, support, resources, guidance, feedback, and assistance to refine and develop their skills and, enhance problem solving and decision making in a way that leaves its mark on knowledge and practice related to student learning. This newly updated training course reflects P-12 Common Core State Standards, New York State Certification Requirements, and New York State Professional Teaching Standards. The class will focus on identifying the range of needs of new teachers; ways mentors can address those needs; and resources available to mentors and protégés through the district and the Great Neck Teacher Center. This workshop will be facilitated by the Great Neck Mentor Trainers –

a diverse group of Great Neck master teachers representing a full range of grade level and subject area teaching experiences.
